BRITISH NAVAL OFFICER STOPS JEWISH EXILE.

Paks, Hungary: (By I. J. P. B.) Judge Sabornay of this city decreed that all the local Jews leave Paks within twenty-four hours. In their despair the Jewish community turned to the commanding officer of the British Monitor which was stationed in the harbor. The commandant immediately notified the authorities that he will not allow this outrage to be perpetrated, and that he will bombard the city as soon as it should be attempted. Being subject to influence, the good Judge withdrew his edict, and the Jews remained in their homes.

The Heywood-Wakefield Phonograph

—the most beautiful, the most unique and the most perfect tone of any Phonograph ever produced.

Reed was never more appropriately used than in the construction of Heywood-Wakefield Exclusive Phonographs.

By the use of the reed cabinet, the Heywood-Wakefield Phonograph is made free of those discordant vibrations of sound which takes place in the closed-in, sealed-up spaces of a wood cabinet. The music flows through the open spaces of the reed without any vibratory interference, thus retaining its purity and fullness of tone.

The Heywood-Wakefield "cushioned" reproducer has been built with scientific exactness to parallel the human organs of sound. It is absolutely non-resonant. No detail of a record, no matter how delicate, escapes the reproducer—and there is no "screech" to mar it.

PRICES \$75.00, \$125.00, \$160.00, \$175.00.
